## ABOUT ME

As a full-stack developer proficient in Node.js, Vue.js, and React, I bring extensive experience and expertise to every project. With a proven track record of delivering high-quality, production-level solutions, I excel at creating robust, scalable applications that meet client and user needs. My skill set allows seamless navigation of both front-end and back-end development, ensuring optimal performance across the stack. From conceptualization to deployment, I am committed to delivering innovative solutions that drive business success and exceed expectations.

---

## SKILLS

**Languages & Frameworks:** Node.js, Vue.js, React, Next.js, Nuxt, HTML, CSS, JavaScript, TypeScript, C#, asp.net (beginner level), python and django (beginner level)

**Databases:** MySQL, MongoDB, Postgresql, Prisma, Type ORM, Entity Framework core and other ORMS.

**Development:** SaaS Applications, Ecommerce, CMS, REST APIs, Backend Development, Frontend Development, Payments integration, Real time features with websockets, Video processing and streaming

**Tools & Other Skills:** SEO, Version Control (Git), Testing and Debugging, DevOps (CI/CD), Cloud Services.

---

## EXPERIENCE

### Independent Full Stack Developer

Hobby Projects and Self Learning

June 2024 – Present

- Developed and maintained my own website <https://salmandev.in>. A responsive and interactive portfolio website showcasing my projects, blogs, and other creative endeavors. A discussion platform with commenting and topic tracking.

- Created and maintained some hobby projects for showcasing and future use cases.
- Deepened expertise in frameworks and many development tools and languages, eg. Express, Nestjs, dotnet, Typescript, C#, Nuxtjs and more.
- Participated in open source community-driven projects on GitHub, reporting issues and discussion.

### **Full Stack Developer (Remote)**

Bizreck Solutions, Noida UP, India

Feb 2023 – June 2024

- Developed and maintained web applications using Node.js, Vue.js, and React.
  - Implemented RESTful APIs to facilitate seamless data exchange between front-end and back-end systems.
  - Collaborated with teams to define project and development requirements.
  - Integrated third-party services and APIs like payments and locations to enhance application functionality.
  - Ensured optimal performance and responsiveness of applications by conducting thorough testing and debugging.
  - Contributed to the continuous improvement of development processes.
- 

## **EDUCATION**

### **Bachelor of Computer Applications**

Manipal University Jaipur

Mar 2022 – March 2025

---

## **PROJECTS**

- **London Taste Models** - <https://londontastemodels.co.uk/>
- **Laundramoon - Laundry Services** - <https://www.laundramoon.com/>
- **Urvigo - SaaS Application** - [Contact for demo](#) → [Salman.k3001@gmail.com](mailto:Salman.k3001@gmail.com)
- **And more**

These were some of the projects developed for clients. Please visit portfolio page (<https://salmandev.in/portfolio>) on my website to see details of each project and also checkout the demo projects i have created

---

## SKILL SETS

### Modern Frameworks

Node.js, Vue.js, React, Next.js, Nuxt, experience in building and maintaining web applications using these frameworks. Capable of handling both front-end and back-end development tasks seamlessly.

### Database Management

Experience with MySQL, MongoDB, PostgreSQL and Proficient in using ORMs to interact with databases in an object-oriented manner such as Type ORM, Mongoose, Lucid ORM, Prisma, Entity Framework core. Skilled in managing different types of databases to ensure efficient data storage and retrieval.

### Development Expertise

SaaS Applications, E-commerce, CMS, REST APIs.. Experienced in creating Content Management Systems (CMS) and implementing both RESTful api.

### Advanced Tool Utilization

Version Control (Git), Testing and Debugging, DevOps (CI/CD), Cloud Services Utilizes Git for version control to manage and collaborate on code efficiently. Testing and debugging to ensure application stability and performance. Experienced with cloud services to deploy and manage scalable applications.

### Real-time Features and Integrations

WebSockets, Payments Integration, Third-party API Integration. Implements real-time features using WebSockets for dynamic, interactive applications. Integrates various payment gateways and third-party services to enhance application functionality.

### Adherence to Best Practices in Coding

Creating Reusable Code Libraries, NPM Packages, Test Driven Development (TDD), Using SOLID Principles, follow Clean Architecture, Follows Test Driven Development (TDD) practices to ensure error-free code.

### Docker and Microservices

Familiarity with Docker and microservices architecture.

## CERTIFICATIONS

### Certification JavaScript Developer

By Meta (Facebook) from coursera

### Certification React Developer

By Meta (Facebook) from coursera

### Certification MongoDB Basic

By mongo university

---

**Languages:** Fluent in English and Hindi

**Other Skills :** Fast Learner, Easily adapting new stacks:

**Visa Status:** Resident visa from Sharjah (Need 15 - 30 days notice period)
